

Abstract of the Disclosure

Methods and apparatus for generating an interactive coding example for an online computer language tutorial are shown. The interactive coding  
5 example is displayed in an electronic document as part of an online computer language tutorial. An interactive example window is displayed in the electronic document by web browser software to enable the user to easily view, modify, execute, and debug the  
10 example instructions. The example source code is processed by an example execution engine in the user's computer.
